

ABOUT OPTIMA GUTTER PROTECTION

Optima provides residential consumers with affordable, attractive and strong products that will protect and beautify their homes and gutter systems for decades to come.

Optima Gutter Protection are a patented design that combines superior functionality, strength and artful design in a low cost combination of stainless steel raised-ridge patterned screen with high flow louvered frame supports. Guaranteed to work and simple to maintain, Optima Gutter Protection are the new standard in American Built function and design.

Our promise to you is to continue to innovate and develop American Designed and Assembled gutter protection and home improvement products that add beauty to the home and improve the safety and comfort of the home through superior functionality and design.

Meet our beloved Humpback Whale, Betty.

Optima donates a portion of our proceeds to make sure Betty's surroundings are healthy as well. Preventing plastics and chemicals from entering her environment is essential to healthy ocean life. Help Betty and all her ocean friends by doing your part in decreasing waste and supporting local conservation efforts.
